Theatre-goers who are most exacting in their demands for all that modern stage mechanism has made possible, are unanited in their praises of the lavish production of this musical comedy.—Advertisement.

Ganderbone's Forecast.

November is from the Latin novem, nine. It was formerly the ninth month of the year, but Numa, who was running for a trier term, refused to issue the regular Thanksgiving proclamation until he knew how the coming out, and pushed it along to eleventh place. He was defeated, and did not proclaim any Thanks, giving at all, but the one and two-termers got together, and the day was celebrated over his head.

A fond farewell, then lovely fall, the winter days are coming. The ivy rattles on the wall, and the flowers are succumbing. The wild geese wedge down the sky, with Boreas to bite him, and the bell moose sounds his thrilling cry for all who care to fight him.

Adieu to peace, the tender sky, the beauties of the season, the candidage's untrodden eyes and the nature appeal to reason. The battle rushes to its close, the bull begins to bellow, and the last man with a bloody nose will be a lucky fellow.

The field at Armageddon throbs with the heat of battle on it, and the red bandanna blithely bobs above the royal bount. The golf club rises on the air from each new spattered noggins, and the Jersey man is everywhere with his bloody pogamoggan.

Lay on, then warriors bloody, With neither last nor comma, And tie upon the one who first Shall bellow for his mamma.

The country will survive the row, However it's decided, And it can't much matter, anyhow, The way we are divided.

The hunter's horn will rouse the morn with mellow music of the chase, and waking day will look the word and cold duckshooter in the face. The puennoocens will devise a few wet inlets in his boot, and at the end he will arise and calmly massacre a goat.

Meanwhile, the farmer will pursue the bold quail hunter on his manes, and having deftly worked him through a few wire fences, get his pants. The chiller trespasser, with his knees in rapid contact in the blast, will hurry homeward while disease pursues him hotly to the last.

The frightened men, this last time out, Will cast their votes for President, And the women, loitering about, Will voice their growing discontent.

Before the voting has commenced, They'll sometimes help the candidate That like as not they bet against.

What women's rights can haply be occasions many grave disputes, but once the women folks agree, they'll get them, you can bet your boots. As like as not another full or snub a matter will ensue, and in the new arrangement all the men can ever be is vice.

At any rate, we'll vote this time, and till that imminent event, the wondrous bowdies of the climate will not occasion much comment. The sassafras will waste its fruit and fragile beauty on the blind, and the sweet cadenzas of the quail will perish on the Autumn wind.

Old King Corn and all his men Will tent upon the fields again, And in a few contented states Will succor all the candidates.

They'll make their military round Wherever hungry people sit, And see that credit shall redound To everybody claiming it.

The doughty little Balkan states Will measure courage with the Turks, and keep the harvesters of date at tending strictly to his works. They'll make him pile his booming rugs as high as Hannan for defense, and we'll be picking out the slugs a year or so on a matter hence.

The only damage to acorns will be to fill the rugs with lumps, and buying them, as we will do, we'll wonder if they have the mumps. The baby every now and then will dig a bullet from the map, and having paid the doctor ten, we'll all exorcise the scarp.

The calf will show a redder blush, and take a tail hold in the stack. The end will meet the center rash, and spring the hinges in his back. The hired man will bawl for more and thicker blankets in the night, and the wind will pry around the door to see if everything is tight.

For the first twenty-two days November will be under the influence of Scorpio, the eighth sign of the zodiac. Any boy born in this period can be President without the usual formalities. Scorpio people are the rulers of the earth. They always have a good toe hold at the kick off, and if they once get the ball it is impossible to take it away from them.

Neither, Von Moltke and Bismarck are typical Scorpio people, all of them having been born under this sign.

The last seven days of November will be under the influence of Sagittarius the Archer. The best anyone born in this period can hope for is the vice presidency. Still, these folks have tremendous foresight, and can usually see where they aren't going to fall, which is a great help to any big business man. Carnegie and Croker are typical Sagittarians, and were both born under this sign.

The President's regular Thanksgiving proclamation, advancing the giving proclamation, advancing the key about ten cents a pound, will be issued right after the election.

And then last clinging to the tree, The old cider will become about What apple cider ought to be.

New Campaign Opens.

Milwaukee, Wis., Nov. 4, 1912. (Special)—A call for 1,200 local Campaign Managers to handle the distribution of Red Cross Christmas Seals in different parts of the state, has been issued by Otto M. Bradley, Campaign Manager of the Wisconsin Anti-Tuberculosis Association. This call constitutes the opening act of the 1912 seal campaign, by which the association will raise the funds for conducting its public health crusade during the coming year.

The sale will open November 9th, continuing until Christmas. There were 855 local managers in different localities in 1911, but the association is hopeful of raising at least 1,500 this year. Each local manager is expected to have the seals sold by businessmen, different organizations and all of the school children of the community.

To stimulate the sale on a basis of friendly rivalry, a large number of valuable prizes are being arranged for. They include vacuum cleaners, drinking fountains, an open air school, and a number of other things pertaining to public health and education. The complete list, including several thousand dollars worth of prizes that are being donated by friends of the association, will be announced later.

Seventy-five million seals are being printed for the United States. Eight million of these have been ordered for Wisconsin with the expectation of making a record sale. The past years' accomplishments of the Wisconsin Anti-Tuberculosis Association warrant the confidence of its members in the willingness of the people to generously support the crusade against consumption.

Almost Landed by Confidence Sharks.

A Wausau county man enroute for the west recently fell in with a gang of sharks while waiting for a train in Minneapolis and was nearly despoiled out of \$5,000 in cold cash. He was accosted by a gentleman on the street who represented himself as a race horse man from Kentucky and who through a special effort had secured a private wire direct from the race course to his office in Minneapolis. He was betting on the races and finally induced his newly made acquaintance to join him. Everything worked nicely and both were winning. It was suggested that the bets be increased to five thousand and each drew their checks for that amount. Fortune favored them again in their betting and they won a large sum of money, something like fifteen thousand dollars. As the check given by the man from here couldn't be handled by the confidence men they suggested that he get the money. They placed the checks in a strong box, locked them up and gave him a key to it so that they would be intact on his return. The gentleman returned to this county and got his \$5,000 in cash and started on his return trip but before doing so he came here to interview E. F. Kileen regarding the matter. Mr. Kileen did everything in his power to convince the gentleman that the bets had fallen in with a bunch of sharks and that they would despoil him of his \$5,000 but the man insisted on it being a square deal and that he was going after the fortune that awaited him. Mr. Kileen then insisted on going with him and did so. Upon arriving in Minneapolis Mr. Kileen interviewed the police and put them next to the game. An effort was then made to trap the confidence men but in some way they got wise and vanished. Confidence men have been working Minneapolis on several occasions this fall and only a few days previous to this a similar game was tried on a gentleman from the south who was going through that city enroute for the west. One of the banks there saved him from losing his roll.—Wanted Argus.

What women's rights can haply be Occasions many grave disputes, they'll once the women folks agree, they'll get them, you can bet your boots. As like as not another Fall or such a matter will suffice, and in the new arrangement all the men can ever be is vice.

At any rate, we'll vote this time, and till that imminent event, the wondrous beauties of the climate will not occasion much comment. The assassins will waste its frail and fragile beauty on the quail, and the sweet cadences of the bird will perish on the autumn wind.

Old King Kent and all his men Will vent upon the fields again, And in a few contested states Will enclose all the candidates. They'll make their military round Whenever hungry people sit, And see that credit shall rebound To everybody claiming it.

The doughty little Balkan states will measure courage with the Turks, and keep the harvester of dates at tending strictly to his works. They'll make him pile his blooming rugs as high as Haman for defense, and we'll be plucking out the slugs a year or such a matter hence.

The only damage to accrue will be to fill the rugs with lumps, and buying them, as we will do, we'll wonder if they have the mumps. The baby every now and then will dig a bullet from the nap, and having paid the doctor ten, we'll all exorcise the scrap.

The calf will show a redder blush, and take a tail hold in the sock. The end will meet in the center rust, and spring the hinges in his back. The hired man will bowl for more and thicker blaskets in the night, and the wind will pry around the door to see if everything is tight.

For the first twenty-two days November will be under the influence of Scorpio, the eighth sign of the zodiac. Any boy born in this period can be President without the usual formalities. Scorpio people are the rulers of the earth. They always have a good toe hold at the kick off, and if they once get the ball it is impossible to take it away from them.

Ernest, Von Moltke and Pyana Tambo are typical Scorpio people, all of them having been born under this sign.

The last seven days of November will be under the influence of Sagittarius, the Archer. The best anyone born in this period can hope for is the vice presidency. Still, the folks have tremendous foreign, and can usually see where they aren't going to jail, which is a great help to any big business man.

The President's regular Thanksgiving proclamation, advancing thanksgiving ten cents a pound, will be issued right after the election.

And then December's winds will rust. The last leaf clinging to the tree, And the elder will become about. What apple cider, ought to be.

—Apart from its legitimate claims to popularity because of its catchy song and delightful music, Seamus & Anthony's "The Girl Who Dared," which comes to Daly's Theatre, Saturday, Nov. 16th, is a production that from a scenic view point has seldom been equaled and never surpassed in the history of the American stage. These are the people who are most exacting in their demands for all that modern stage mechanism has made possible. The lavished production of this musical comedy.—Advertisement.

New Campaign Opens.

Millwaukee, Wis., Nov. 4, 1912.

(Special)—A call for 1,200 local Campaign Managers to handle the distribution of Red Cross Christmas Seals in different parts of the state, has been issued by Otto P. Brantley, Campaign Manager of the Wisconsin Anti-Tuberculosis Association. This call constitutes the opening gun of the 1912 seal campaign, by which the association will raise the funds for conducting its public health crusade during the coming year.

The sale will open November 9th, continuing until Christmas. There were 855 local managers in different localities in 1911, but the association is hopeful of enlisting at least 1,200 this year. Each local manager is expected to have the seals sold by businessmen, different organizations and all of the school children of the community.

To stimulate the sale on a basis of friendly rivalry, a large number of valuable prizes are being arranged for. They include vacuum cleaners, for, they include vacuum cleaners, an open air drinking fountain, an open air school, and a number of other things pertaining to public health and education. The complete list, including several thousand dollars worth of prizes that are being donated by friends of the association, will be announced later.

Seventy-five million seals are being prepared for the United States. Eight million of these have been ordered for Wisconsin with the expectation of making a record sale. The past year's accomplishments of the Wisconsin Anti-Tuberculosis Association warrant the confidence of its members in the willingness of the people to generously support the crusade against consumption.

Almost Landed by Confidence Sharks.

A Wausau county man enroute for the west recently fell in with a gang of sharks while waiting for a train in Minneapolis and was nearly fleeced out of \$5,000 in cold cash.

He was accosted by a gentleman in a race horse man from Kentucky and who through a special effort had secured a private view direct from the race course to his office in Minneapolis. He was betting on the races and finally induced his newly made acquaintance to join him. Everything worked nicely and both were winning. It was suggested that the bats be increased to five thousand and each drew their checks for that amount.

Fortune favored them again in their betting and they won a large sum of money, something like fifteen thousand dollars. As the check given by the man from here couldn't be handled by the confidence men they suggested that he get the money.

They placed the checks in a strong box, locked them up and gave him a key to it so that they would be intact on his return. The gentleman returned to this county and got his \$5,000 in cash and started on his return trip but before doing so he came here to interview E. F. Kileen regarding the matter. Mr. Kileen did everything in his power to convince the gentleman that he had fallen in with a bunch of sharks and that they would fleece him of his \$5,000 but the man insisted on it being a square deal and that he was going after the fortune that awaited him. Mr. Kileen then insisted on going with him and did so. Upon arriving in Minneapolis Mr. Kileen interviewed the police and put them next to trap the confidence men but in some way they got wise and vanished. Confidence men have been working Minneapolis on several occasions this fall and only a few days previous to this a similar game was tried on a gentleman from the south who was going through that city enroute for the west. One of the banks there saved him from losing his roll.—Wautoma Argus.

NEWS FROM NEARBY PLACES.

Rhinelanders New North—Stanley B. Curry, principal of the schools at Three Lakes, this county was fatally shot by the discharge of a set gun while hunting three miles north of Three Lakes at six o'clock Sunday morning. Mr. Curry was in the company of Frank Neutz of Manitowish when the shooting occurred. The gun responsible for the accident was no doubt heavily loaded as the charge shattered both of the unfortunate man's lungs. Mr. Neutz instantly secured assistance and Mr. Curry was removed to Three Lakes where his injuries were dressed by Dr. Thorpe. The shock however, proved too much for him to withstand and he died about one o'clock Sunday afternoon. The gun which caused Mr. Curry's death had evidently been placed in the woods for the purpose of killing deer. It was a trap arrangement, the trigger connected by a wire to a concealed spring. The parties who set the gun are not known although the people of Three Lakes are said to have their suspicions as to who the guilty ones are.

Stevens Point Journal—William Shoemaker of the town of Alban was arraigned in Justice Pak's court Wednesday on a charge of killing a deer in Portage county, in which there is no deer season. Deputy Game Warden Kelley of this city is the complainant. He pleaded guilty and waived examination, whereupon he was bound over to the circuit court, being released on a \$500 bond. The circumstances surrounding the case are very peculiar to say the least. It appears that as Shoemaker and a companion were driving along a road in the town of Alban, they saw a deer grazing in a field at a distance of about twenty yards. Shoemaker had a twenty-two calibre target rifle with him and remarking to his companion that he would make the deer jump, he aimed at the animal and fired, thinking that even should he hit it as far as a distance of considering the size of the gun, it would only hurt it slightly. To his surprise the bullet took effect and after taking only a couple of steps the animal fell to the ground, dead. The ball had evidently pierced its heart.

When the Yawkey-Bissell saw mill at Arbor Vitae ceases final operation within a day or two every stock of available lumber in that vicinity will be manufactured into lumber. This week the mill is sawing boom sticks, piling, etc. When this cut is finished the plant will be closed for all time and preparations for its removal from the village will be made. Months ago families began to leave Arbor Vitae and today only one busy little lumber town is almost a deserted hole in the brush. With the removal of all the interests of the Yawkey-Bissell company away from the village the name, Arbor Vitae, will soon become nothing but a memory. Thus one by one do the northern lumber towns drop out of existence. The musical hum of the saw mill grows fainter as the years advance.—Rhinelanders New North.

Oh You Bungalow!

That's what I am going to have when the road gets better and my finances improve a bit. I'm to have a nice little five room bungalow—all on one floor, with a balloon on the roof—and I'm going to have the deed to it, too, you bet.

Having a home of your own beats having a bundle of rent receipts, and getting your lumber and building materials of my boss beats three of a kind.
